A SCOPING REVIEW TO INFORM AN INTERVENTION ADDRESSING THE NON-CONSENSUAL DISTRIBUTION OF INTIMATE IMAGES (NCDII) AMONG 12-17-YEAR-OLDS

In partnership with the Canadian Centre for Child Protection (C3P)

Isabel Garces Davila, Daniel Ji, Katrina Abela, Brandon Hey, Jacques Marcoux, Katelin H. S. Neufeld, Lauren MacGowan, Julie-Anne McCarthy, Ana Osorio, Jamie Pfau, Tamara Taillieu, Ashley Stewart-Tufescu, Tracie O. Afifi

WHAT IS THE CANADIAN CENTRE FOR CHILD PROTECTION (C3P)?

A NATIONAL CHARITY DEDICATED TO THE PERSONAL SAFETY OF ALL CHILDREN

C3P'S MISSION

1. Reduce the incidence of missing and sexually exploited children
2. Educate the public on child personal safety and sexual exploitation
3. Assist in the location of missing children
4. Advocate for, and increase awareness about missing and sexually exploited children

THE PROBLEM

Non-consensual distribution of intimate images (NCDII) among youth is a growing concern.
There are significant gaps on evidence-based interventions for reducing and eliminating the NCDII.

THE PROJECT

Conduct a scoping review to assess the extent of the literature on interventions or programs targeting NCDII to prevent and reduce its occurrence among youth.

RESEARCH QUESTIONS

1. What are the characteristics of effective, brief interventions for online peer sexual violence against youth broadly, or NCDII specifically — if these exist?

2. What are the characteristics of effective, brief interventions for offline peer sexual violence against youth that could be adapted for interventions targeting online peer sexual violence (i.e., NCDII)?
